Empowering Young Leaders

Tell us more ...

Local Councils play a significant role in shaping our communities which impacts the lives of its residents. Whether devolved or not; local councils are increasingly responsible for delivering services and managing community assets. Many of these will directly affect the health and wellbeing of their residents.

The social wellbeing of a community relies strongly on the services, facilities and activities available and on the opportunity for community engagement, interaction, development of a sense of inclusion and community cohesion.

Our first peer to peer led conference

We welcome workshop participation and key note talks from the teams at your fellow Parish, Town & Community Councils

Why peer to peer?

You ask the questions you really want to ask and get the answers you need
Everyone is both a student and a teacher
Builds genuine community in the local government sector
Experts sharing knowledge with other experts

OUR EXHIBITORS

For more information, visit our website at bucksalc.gov.uk
or call 01296 383154. You can also email us at balc@bucksalc.gov.uk

Workshop 1 – Enrichment

This Enrichment Workshop is delivered in three parts by your peer colleagues from Buckingham Town Council, Bletchley & Fenny Stratford Town Council and Wolverton & Greenleys Town Council offering unique insight and first hand expert experience in delivering enrichment projects and provisions for your communities through Art, Events and Youth Programmes

Workshop 2 – Funding

This one-hour workshop offers invaluable information about the funding sources available for community health & wellbeing projects in Buckinghamshire. There will also be tips and advice on applying for grants and writing more successful bids.

Workshop 3 – Social Prescribing

Recently there has been a lot made of Social Prescribing – the ability of GPs and their teams to link patients to community and national organisations and activities which would benefit them in terms of physical and mental health – and so avoid surgery and drug prescriptions.

In this session we look at the forms that social prescribing takes, who does it, how town and parish councils can promote and get involved with this and how they can support residents to benefit from these opportunities.

The cost of the workshops are included in your conference ticket price of £25
Workshop duration, one hour each including Q&A
Places are limited book now to avoid disappointment
